FIELD TRIPS AND EXCURSIONS

School administrators and teachers shall develop systematic procedures for ensuring that all trips away from the school provide optimal learning opportunities for students.

The following minimal procedures shall be adhered to when conducting field trips and excursions away from school:

- Students shall be expected to exhibit good behavior and shall be subject to the same Student Code of Conduct applicable to regular classroom activities.

REPORT CARDS

RESPONSE to INSTRUCTION (RtI) AND STUDENT SUPPORT TEAMS

Response to Instruction (RtI) integrates core classroom instruction, assessment, and interventions within a multi-tiered system to maximize student achievement and reduce behavior problems. Through the implementation of RtI, schools identify and monitor students who are at-risk of falling behind academically. Schools use problem-solving and data-based decision making to provide research-based interventions to students who need additional assistance in core classes. Problem-Solving Teams monitor student progress frequently and adjust the intensity of the intervention based on student results. These teams make high quality decisions to support all students, especially those at risk of failing to achieve state performance standards.

STUDENT PROMOTION AND RETENTION

The process of making decisions as to promotion and retention of elementary students should take into consideration a variety of factors including age, maturity, motor coordination, capacity for learning, and academic progress based on minimum standards required by the Alabama Courses of Study. According to the Alabama Literacy Act, "Commencing with the 2021-2022 school year, third-grade students shall demonstrate sufficient reading skills for promotion to fourth grade. A student scoring at the lowest achievement level in reading on the current state assessment for third grade will not be promoted to fourth grade unless the student meets a good cause exemption for promotion." The determination process should involve the principal and teacher(s) with the final authority for determining promotion and retention resting with the principal.

If a student needs to be retained based on the above criteria, the parent(s) or guardian(s) of that student will be informed. In all cases, the decision of whether a student should be promoted or retained will be made on the basis of which grade placement provides the student a better chance of progressing in his/her educational development.

TEXTBOOKS

- Textbooks are furnished by the State of Alabama and become the responsibility of the student to whom they are assigned.
- Parents or guardians will be expected to pay for textbooks or library books that are lost or damaged while issued to their child.

PROGRAMS FOR EXCEPTIONAL EDUCATION SERVICES

GIFTED SERVICES

Intellectually gifted children and youth are those who perform or who have demonstrated the potential to perform at high levels in academic or creative fields when compared with others of their age, experience, or environment. These children and youth require services in addition to the regular school program. Children and youth possessing these abilities can be found in all populations, across all economic strata, and in all areas of human endeavor. All second grade students in the Athens City Schools will be observed as potential gifted referrals using a gifted screening process provided by the Alabama State Department of Education. Teachers, counselors, administrators, parents or guardians, peers, self, and other individuals with knowledge of the student's abilities may refer a student for consideration for gifted services. The parents must be informed when their child has been referred.

For more information regarding gifted services and the referral and eligibility process contact the Exceptional Services Department at 256-233-6600.

PROGRAMS FOR EXCEPTIONAL CHILDREN

Special education, related services, and supplementary aids and services are provided to students who meet certain criteria.

Information regarding services, supports, or referral procedures may be obtained from the school principal. All referrals, evaluations, and educational support are provided in accordance with the *Individuals with Disabilities Education Act of 2004* and the *Alabama Administrative Code Chapter 290-8-9 Special Education Services SUPP. NO. 11-2*.

EXCEPTIONAL EDUCATION CHILD FIND NOTICE

The Athens City Schools ensure that all children residing in the jurisdiction of the local education agency, birth to twenty-one, regardless of the severity of their disability, and who need special education and related services are identified, located, and evaluated. Child Find also applies to children with disabilities who attend private schools, including children attending religious schools, within the Athens City Schools jurisdiction, highly mobile children with disabilities (e.g. migrant children), and homeless children, or children who are wards of the State and children who are suspected of having a disability and are in need of special education even though they have not failed, been retained in a course or grade or are advancing from grade to grade.

If you know of a child who may be in need of exceptional education services or would like to receive additional information regarding services for students with disabilities contact the Exceptional Services Department at 256-233-6600.

Section 504 of the Rehabilitation Act of 1973 (Section 504) is a civil rights statute that prohibits discrimination/harassment on the basis of a disability in any program or activity receiving federal financial assistance. Section 504 provides "No otherwise qualified individual with a disability in the United States . . . shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance" For questions regarding Athens City 504 procedures, contact the Exceptional Services Department at 256-233-6600.

ATTENDANCE

One of the most important things a parent or guardian can do for their child is ensure they are in school every day and on time. It is key to their learning, their success in school, and ultimately their success in life. Athens City Schools maintain an attendance policy and a truancy policy, which were written in accordance with Alabama State Board of Education Administrative Code, and §16-28-1 *et seq.*, Code of Alabama (1975). Below are the details of those policies. If you have any other questions, please contact the attendance officer or principal.

General Provisions

- A school day is defined as 7:45 a.m. until 2:45 p.m. **(AIS-7:50-2:50)**
- A full day is defined as 51% of the day.
- Late arrivals should report to the office. Responsible party should complete the check-in process.
- Check-outs shall be conducted through the office.
- Any missed school will be categorized as an excused absence, excused tardy, unexcused absence, or unexcused tardy.
- All excuse notes must be submitted to the school office within 3 days upon returning to school.
- Excessive absences and tardies will subject a student to truancy policies and procedures.

Absences

Excused Absences

Absences are excused for the following:

- Illness.
- Death in the immediate family.
- Inclement weather which would be dangerous to the life and health of the child as determined by the principal.
- Legal Requirements
- Emergency conditions as determined by the principal.
- Prior permission of the principal upon request of the parent or legal guardian.
- Suspension.

Athens City Schools allows a student to be absent from school for any of the above reasons for five days per semester provided the parent has verified this in writing upon the student's return to school. Any absence beyond five days during a semester must be confirmed by a physician's document in order for the absence to be excused. Otherwise, absences beyond five will be considered unexcused. Each day counts as an absence and requires a note to be excused. (For example, if a child misses 2 consecutive days and a parent writes a note excusing those 2 days, it counts as 2 of the 5 parent notes for the semester).

Unexcused Absences

Absences that do not fall under one of the "excused absences" categories are deemed unexcused.

The following are also deemed unexcused:

- Failure to send a note within three (3) days of the absence.
- Failure to secure prior approval from the principal for vacations, visits, work, or other activities.
- Five consecutive days absent without medical or legal documentation. If five or more days are missed in a row, there must be a medical or legal excuse.
- Failure to provide a medical excuse after a student has accumulated five (5) absences with parent note for the semester.

Tardiness

Being late to school or checking out of school are excused or unexcused for the same reasons as absences. Habitual tardiness greatly affects a child's progress in school. For every three accumulated tardies, one available parent excuse note will be forfeited.

e-Learning Days K-5

ACS offers K-5 students, with parent/guardian request, the opportunity of up to five (5) days per semester as E-Learning Days. These days will allow students to meet their class requirements through on-line engagement/hard copy of class material and assignments (Teacher's Discretion) while they are away from the building.

The following are criteria for E-Learning Days:

- Trips of educational value, safety or security of a student when parents are traveling and the student cannot be left alone, non-school related athletic competitions for future opportunities, are some examples, but are not the only occasions that may be approved.
- Student's parents must request these opportunities at least three (3) calendar days prior to the 1st day of E-learning.
- Students may not have excessive and/or unexcused absences/tardies within the school year.
- Students may not take an E-Learning day on the first day of the school year.
- Students must not be in need of academic support prior to the request.
- Students cannot have any Class II or III write-ups during the semester the request is made.

Truancy

Truancy is the habitual and unlawful absence from school. Truancy is governed by Alabama law under §16-28-1, *et seq.* Code of Alabama. If a child is truant, the parent or guardian can be charged under Alabama law with a criminal action in Juvenile Court.

Truancy is determined by unexcused absences and tardies.

Unexcused absences shall be addressed as follows:

- 1 unexcused absence = parental notification by letter from the School
- 2 unexcused absences = parental notification by letter from the School
- 5 unexcused absences = mandatory attendance at the school's Early Warning Meeting
- 7 unexcused absences = a Petition is filed against the parent or guardian in the Limestone County Juvenile Court

The Early Warning meeting shall be set by the school attendance officer and is a mandatory meeting. This meeting is also an opportunity for the parent or guardian to discuss the attendance of their child with school officials, and to ask any questions regarding attendance. Failure to attend this meeting will result in an immediate Petition being filed against the parent or guardian.

If a Petition is filed in the Limestone County Juvenile Court against a parent or guardian for truancy, they will be required to appear before the Juvenile Court Judge. If found guilty of the charge, they shall receive a misdemeanor conviction, and may receive a fine of up to \$6000 and be sentenced up to 1 year in the county jail. The parent or guardian and the student may also be ordered to participate in programs that address the issues relating to the truancy of the student.

WITHDRAWALS

- Withdrawals should be completed in person.
- Parents should notify the school office of plans for withdrawal as soon as possible prior to the student's last day.
- Parents should have the new school request the student's records. The records will be mailed to the school to which the child is transferring.
- The Immunization Card (Blue Card) may be picked up in the school office at the end of the day on the child's last day of attendance.
- All school property must be turned in and all charges paid.

CHILD NUTRITION PROGRAM

Our mission is to provide affordable and nutritious meals to students of Athens City Schools.

Lunch Numbers and Lunch Account

Athens City Schools uses a computerized system in the lunchrooms. This helps to expedite lines and helps to lengthen the time your child has to eat breakfast and lunch. We utilize offer versus serve, which allows students to have different choices for each meal. Each student has an account with an assigned 3, 4, or 5 digit number they enter or scan each time they go through the lunchroom line. Please make sure your child knows his/her lunch number. The following are specific details that you will need to know:

Deposits

- Make deposits directly into the student's account at the serving line, or
- Make deposits online through the automated payment system or pay online (please refer to the Athens City School's website for specific details). *Send sibling's money separately if your child is participating.
- If a student participates in our Free and Reduced Breakfast and Lunch Program, he/she may deposit funds into his/her account by entering his/her lunch number or online.
- Send ala carte money in an envelope marked with your child's name, homeroom teacher, and lunch number or pay online. See the Athens City School's website for specific details.
- If you are sending a check, please write your child's name and lunch number on the check. Check must include a phone number. **Please do not write a check for other purchases such as field trip money, fundraiser, etc. while paying for anything in the lunchroom.**
- Only food eaten in the lunchroom can be purchased with the money you send to the lunchroom.
- Parents may put restrictions on what and when extra food may be purchased.

Negative Balance

- We will notify you or your child when your child's account balance is depleted.
- You may register for a free online lunch account. This allows you to monitor your child's lunch account and make payment for small charges.
- Please send money the next school day to correct deficiencies or pay online anytime.
- When paying with cash please submit the correct amount. Schools do not keep change.
- The Board of Education strongly discourages the charging of food and beverages to meal accounts **with negative balance.**
- Uncollected cafeteria charges constitute a bad debt and are not allowed.
- Extra servings and a la carte purchases are not allowed when a meal account has a negative balance.
- It is understood that the parent or guardian of any student who purchases food and beverages from the Child Nutrition Program will provide funds through the meal account and is responsible for resolving all negative balances immediately.

Our primary goal is to feed our children the most nutritious meal with enough time to enjoy the meal. Students and parents are encouraged to take advantage of pre-payment and online payment options by depositing weekly or monthly amounts. The online payment option is available on your school website or www.acs-k12.org.

Important: On the last day of school, any money left in your child's account will automatically roll over to the next school year and any negative balances MUST be resolved.

- Any lunch balance can be requested for a refund or transfer to another lunch account in the district by the parent and/or guardian during the school year by contacting the lunchroom or central office.
- Any unclaimed balance remaining in a lunch account 30 days after the last day of school by a student who withdrew from the district during the school year or graduated will be moved to a CNP account and used to pay for any student lunch debt within the district. This shall not apply to unclaimed balances in CNP accounts for households that are approved for reduced price benefits, as Athens City Schools will make reasonable attempts to refund those balances.

Free and Reduced Price Meal Application

Athens City Schools makes available the online application for Free and Reduced Price Meals online! The process is SAFE, SECURE, PRIVATE, and AVAILABLE anytime, anywhere! Visit your school website for a direct link.

- The application is processed as quickly as possible; however, it can take several days.
- Please complete your application as soon as possible and turn in immediately.
- If your child received free or reduced meals last year, you have to complete a new application each year.
- You have up to thirty-days (30) from the first day of school if you received free or reduced priced meal benefits in the previous school year to complete and submit another application.

HEALTH SERVICES

ALLERGY GUIDELINES

If a student has a SEVERE allergy or intolerance, the student is required to have a signed health care provider (MD, NP, PA, DO, RD) statement indicating their allergy or intolerance and the type of reaction. If a student has a food allergy which requires a modified diet, the student is required to have a signed health care provider **Diet Prescription for Meals at School** form.

The Alabama State Department of Education along with the USDA requires every school for lunch to offer milk with four other meal components to Pre-K through 12th grade. Each student (Pre-K through 12th grade) must take at least 3 meal components and one of those components must be a fruit and/or vegetable serving on their tray. For breakfast, each student (Pre-K through 12th grade) will be offered milk and must take at least 3 meal components with one of those components must be a fruit and/or vegetable on their tray.

Athens City Schools recognizes the potentially serious consequences of children with allergies. These allergies may include a condition known as anaphylaxis. Anaphylaxis is a severe, potentially life-threatening allergic reaction brought about by exposure to certain foods or other substances. To ensure proper safety for your children and our students, Athens City Schools requires a signed health care provider's letter/note for any student with an allergy to food, dairy or any allergen (grass, dust, pets, etc.) that could cause health problems during school hours. The signed health care provider's letter/note must be updated at the beginning of every school year.

NOTE: Once a health care provider writes a letter/note indicating a student's allergy, only a health care provider can change the status of the student's allergy. A parent cannot write a letter/note indicating the student may have food items that have previously been deemed as allergies by a healthcare provider.

Athens City Schools does not claim to be, nor can it be deemed to be free of food items and non-food items that may lead to a severe allergic or anaphylactic reaction. Our schools will make every reasonable effort to reduce the risk to children with severe allergies or anaphylaxis.

We live in a world that is contaminated with potential allergens. Children with allergies must learn to avoid specific triggers. While the key responsibility lies with the student and his or her family, in the case of a young allergic child, the childcare community must also be aware. Creating an environment that reduces the risk to severely allergic or anaphylactic children requires the cooperation and understanding of all members of Athens City Schools, including staff, students and parents.

Having a signed letter/note from your child's health care provider, indicating their allergy(s), severity, and how they are treated, is one of the most important steps in creating a safe school environment for everyone. As stated previously, this letter must be updated at the beginning of each school year. If you have any questions, please call your child's school.

Wellness Policy and School Parties

In an effort to decrease the rate of childhood obesity in the United States, the USDA made changes to the National School Lunch Program, National School Breakfast Program and to the amount and types of foods and drinks allowed to be served during the school day. These foods will be replaced with more fruits and vegetables. A lunch must include a fruit and/or vegetable along with at least two to three other items with a total of at least three food components to count as a meal. Breakfast must include a fruit or juice and two other meal components to count as a meal.

Parents are not allowed to bring fast food into the school in advertised bags. (Please put all fast food in an unmarked bag.)

Parties are not permitted during meal times. Contact your child's teacher and/or principal if you would like to bring a treat for a special occasion. We are requesting parties to include some healthy alternatives along with the usual cookies, cupcakes, etc. We ask for your support as we try to develop a healthy school environment for our children. If you would like a detailed explanation of the changes mandated from the USDA, please see our web site at www.acs-k12.org.

HEAD LICE

Pediculosis, more commonly known as head lice, is routinely found in elementary and middle school aged children. Head lice can affect children across all races and socioeconomic backgrounds. Based upon the recommendations from the Centers for Disease Control (CDC), The American Academy of Pediatrics (AAP) and the National Association of School Nurses (NASN), the following interventions are important to help control the spread of head lice in our school community:

Please examine your child's head regularly, especially behind his/her ears and at the nape of his/her neck for crawling lice and/or nits (eggs). An adult louse is about the size of a sesame seed, and can be the same color as your child's hair. Nits are small, often silver or dark in color and are adhered to individual pieces of hair.

- Students who are identified as having live lice: The school nurse will make all attempts to notify parents to pick their child up from school to treat and return to school following treatment, with either an over the counter or prescription lice killing product. The school nurse will recheck the student before being allowed to return to the classroom. They will not be permitted to re-enter the classroom until lice free.
- Students that have been cleared of lice will be re-examined in 14 calendar days by the school nurse. Students found to have head lice will once again be excluded from the classroom until lice free.
- All infested family members must be treated, being careful to follow the product's direction carefully and completely.
- Please contact your child's school nurse if you have had to treat your child for head lice. She is available to serve as a resource to you for any questions you may have regarding treatment, and will need to check your child's head to ensure there are no remaining live lice prior to your child returning to his/her classroom.
- Head lice are a nuisance, but do NOT carry or transmit disease or infection. Mass screenings of school populations is no longer recommended and was not found to be effective in the control of head lice. Misdiagnosis often resulted from such screenings, leading to unnecessary treatment and related absence from school.
- Likewise, "no-nit" policies are no longer recommended, due to evidence that nits found greater than ¼ inch from the scalp are not viable and very unlikely to hatch. Because nits are cemented to individual hair shafts, they are most unlikely to be transferred to another individual. Therefore, students who have been treated and have no evidence of live lice when checked by the School Nurse are able to return to their classroom. Students with nits and no evidence of live head lice will not be excluded from school.

HEALTH SCREENING

Students in grades K-12 are screened for vision and hearing as needs arise.

ILLNESS GUIDELINES

FEVER: A student with a fever of 100.0 or greater should not come to school. A student at school with a fever of 100.0 or greater will be isolated from the classroom. If no one can be reached to pick up the student, 911 may be called to transport the student for medical treatment. This will depend on the assessment by the school nurse based on the clinical symptoms of the student. A student **MUST** be fever free for at least 24 hours **WITHOUT** the use of fever reducing medications (Tylenol, Motrin, etc.) before returning to school.

HEADACHE: Many things such as fever, stress, sinuses, viral illnesses, and dehydration can cause headaches. Some headaches can be serious while others are minor. When a student has a headache that is associated

with a fever and/or neck pain/stiffness or a headache that lasts for more than a couple of hours, the student should be seen by a health care provider. A mild headache can interfere with a student's learning ability. When a student has a headache during school hours and the headache does not go away after 20-30 minutes, the student may be sent home.

STREP THROAT: A student may return to school with evidence of physician diagnosis and a minimum of 24 hours of antibiotic treatment.

VOMITING: When a student has been vomiting, the student should not return to school until they have NOT been vomiting for 24 hours. Note: Nurses will use their judgment when requesting students to be sent home from school for vomiting. Example: If a student gets too hot in P.E., they probably do not need to be sent home and do not need to stay out of school the next day.

DIARRHEA: Certain forms of diarrhea can be contagious. Your child should stay home if he/she has had diarrhea (two times or more) prior to the start of the school day. Children with diarrhea at school will be sent home and should not return to school until no diarrhea for 24 hours.

ABDOMINAL PAIN: Any form of abdominal pain in a child should be taken seriously. Many things cause abdominal pain. A student who complains of abdominal pain should not come to school until the problem has been identified. Any student with abdominal pain that lasts longer than 15-30 minutes may be sent home and should be seen by a health care provider.

COUGH: A cough that is chronic can spread germs and be disruptive in a classroom. Please take this into consideration when deciding to send a student to school. The school nurse may evaluate a student with a cough and if determined to be excessive may be sent home. If a student brings cough drops or cough medicine to school, the student must have a Prescriber/Parent Authorization Form (PPA) completed and signed by a parent or guardian. If this medicine is required longer than 2 weeks, a PPA must be signed by a physician or practitioner for the medicine to remain on campus.

PINK EYE (CONJUNCTIVITIS): Pink eye can be very contagious. If the white of your child's eye is red and has a thick yellow or greenish colored drainage, you should keep your child at home until treated. A student may return to school after a minimum of 24 hours of treatment.

IMPETIGO: A student may return to school with evidence of physician diagnosis and a minimum of 24 hours of antibiotic treatment. Lesions must be covered when the student returns to school.

RINGWORM: Students must be treated with proper medication for a minimum of 24 hours before returning to school and lesions must be covered when the student returns to school.

HAND, FOOT AND MOUTH DISEASE: Students may return to school with a physician's diagnosis and excuse and must be fever free for 24 hours before returning.

RASH: There are all types of rashes. Some are nothing more than irritated skin, while others are very contagious. The guidelines include:

- Either clothing or a bandage **MUST** cover all rashes.
- A student with an undiagnosed rash lasting more than 2 days may be required to have a medical doctor's note in order to return to school.
- A student with a scalp rash may be required to have a medical doctor's note in order to return to school.
- A medical doctor should evaluate a student with a rash that is associated with a fever and/or cough.
- A medical doctor should evaluate a student with spotted rashes on the stomach, back, arms or legs.

IMMUNIZATIONS

Alabama law requires all students to have a current Immunization Card (Blue Card). The original Blue Card is kept on file by the student's school and must be updated per state guidelines.

Each child enrolled in daycare, Head Start, and public or private school in Alabama must have a valid Alabama Certificate of Immunization on file at the facility that they attend. The certificate may be obtained from the physician or clinic that administers the vaccine or may be completed by any county health department in the state if the parent presents a vaccine record from the provider. For students who are moving to Alabama, out-of-state vaccine records must be transferred to the Alabama Certificate of Immunization prior to day care, Head Start, or school entry. This may be accomplished by taking a vaccine record from the provider to the local county health department, or, if the family has chosen a physician in Alabama, the physician may transpose the record. No handwritten immunization cards will be accepted. There can be no handwriting on an immunization card for any reason. These will not be accepted.

The state of Alabama does not recognize philosophical, moral, or ethical exemption from vaccination. A physician may issue a medical exemption or an Alabama Certificate of Religious Exemption may be obtained from the local county health department.

Children attending 5 year-old-kindergarten through 12th grade must have had 5 doses of diphtheria/tetanus/pertussis vaccine (4 if the 4th dose was received after the 4th birthday) and 4 doses of polio vaccine (3 if the 3rd dose was received after the 4th birthday). Booster doses of tetanus-diphtheria toxoid vaccine must be given every 5-10 years after the preschool booster. Children in these grades should also have received 2 doses of measles- containing vaccine and 1 dose each of mumps and rubella vaccine, usually administered as 2 doses of MMR vaccine. Varicella (chickenpox) vaccine for kindergarten entry became a requirement in 2001. This requirement will increase by one grade cohort until Fall 2013, when varicella documentation will be required for all children, kindergarten through 12th grade. A positive test for varicella immunity or documentation of chickenpox disease is acceptable in lieu of the varicella vaccine. Please contact your health care provider if you have any questions.

MEDICATION PROTOCOL

All Prescriber/Parent Authorization (PPA) forms must be renewed at the beginning of every school year and anytime the doctor makes a change to the prescription. Only the prescriber (MD, NP, PA) can change a medication order (dose, frequency, specific time, etc.). Cutting, crushing, or sprinkling a pill/tablet/capsule can be done only with a written prescriber order. Changes to the medication orders by a parent/guardian will not be accepted. The school nurse will verify all questionable changes with the prescriber.

Note: Only one medication per Prescriber/Parent Authorization (PPA) form is acceptable. If a student has multiple medications, a separate PPA must be completed and signed for each medication.

PRESCRIPTION MEDICATION

- All medications must be hand delivered by the parent or guardian to the nurse. This includes all students who "Self-Administer" and/or "Self Carry" medications.
- The nurse must verify all orders before students are allowed to carry and self-administer their medications.
- The nurse or certified medication assistant will count all controlled substances in the presence of the parent or guardian.
- Students are not allowed to carry medication on them while at school without proper physician orders giving permission to carry medication.
- The student is not allowed to "self-carry" a controlled substance. This medication will be kept in the nurse's office.

ALL prescription medications must:

- Be brought in by a parent or guardian to the nurse and they must sign a proper medication form that

indicates the medications were received, counted, and secured by the school.

- Be in the original container with a current pharmacy prescription label attached. The prescription label must match the PPA form.
- Have the correct student's name on the prescription label.
- Have a valid date of expiration. Expired medications will not be accepted. Not be mixed with any other medications (unless indicated on the label).
- Have a completed Prescriber/Parent Authorization Form (PPA) signed by a doctor and parent/guardian per prescription.

OVER-THE-COUNTER MEDICATIONS

Over-the-counter medications will be administered as follows:

- Requires completion of the Prescriber/Parent authorization form signed by the prescriber (MD, NP, PA). All OTC meds staying longer than 2 weeks in the nurse's office require the signature of a prescriber (MD, NP, PA) per Alabama guidelines.
- Must be provided by the parent in the original sealed container identifying the medication name, dosage, and manufacturer's labeling.
- Distributed according to manufacturer's recommendations only.
- If prescribed in excess of the manufacturer's recommended dosage, the parent/guardian will be required to complete a new Prescriber/Parent Authorization form and have it signed by the physician.
- No aspirin or aspirin-containing medication (salicylate) will be given to children or teenagers under the age of 16 years of age, unless prescribed by a physician.

Food supplements, natural substances and herbs are not without potential harm, including life-threatening conditions. Herbal products and dietary supplements have not been subject to the scrutiny of the Food and Drug administration (FDA) and in the United States, as in most countries, dosage and purity have not been regulated for these products. School personnel should not give any substance that could be construed as a drug or medication, including natural remedies, herbs, and nutritional supplements, without the explicit order of an authorized prescriber, and reasonable information regarding therapeutic and untoward effects.

Narcotics will not be allowed to be given at school. CBD oil will not be allowed to be given at school.

ALL Non-Prescription medications must have:

- A new container that is unopened and sealed.
- No other medications mixed inside the container.
- A valid date of expiration. Expired medications will not be accepted.
- The student's name is clearly marked on the original container.
- A completed Prescriber/Parent Authorization Form (PPA) on file.

The following are procedures for medications that students may need to possess on them for self-medication:

- Cough drops are considered OTC medications and will require a PPA form.
- Inhalers – The school nurse must have a copy of the prescription label and box in her office. If the box is unavailable, the pharmacy can provide the inhalers prescription label.
- Epi-Pens (TwinJect, Epinephrine, Adrenalin) - All students with Epi-Pens, TwinJects, and other pre-filled single use epinephrine auto injectors must have a copy of the original pharmacy prescription label attached to the cartridge holder or the original box.
- Students may only carry medications indicated for a "chronic" health condition (asthma, diabetes, seizures, etc.). The doctor must indicate the "chronic" condition on the PPA and check the "kept on person" and/or "self-medication" box on the PPA.
- The parent or guardian will be notified when their child's medication is completed or becomes out of date. Expired medications will not be given at school.

All student medications must be picked up by the last day of school, before summer break, or the medications will be destroyed per federal regulations (in the presence of a witness, as indicated). No medications will be kept at school over the summer.

Some medications are not meant to be given during school hours. The school nurse reserves the right to refuse to administer certain medications unless a doctor has specifically written that the medication be given during school hours. *Note: Most medications will be given by the parent/guardian at home. Medications that are prescribed for three times per day should be given at home, just before leaving for school, upon returning home in the afternoon, and at bedtime. The only exception to this schedule is if the prescriber has ordered the medication to be given before or along with meals.*

When a student will be attending an alternative school, it is the parent's responsibility to transport his or her child's medicine to and from the student's home school and to and from the alternative school.

The parent/guardian should provide the school nurse with a list of possible side effects for medications taken over a 30-day period.

The first dose of any new medicine should not be given at school.

Athens City Schools follows the State of Alabama guidelines for the administration of medications to students. Only school nurses and certified medication assistants are legally allowed to administer medications to students in the State of Alabama.

MENINGOCOCCAL DISEASE AND VACCINE

Meningococcal disease is a serious illness, caused by bacteria. It is the leading cause of bacterial meningitis in children 2-18 years old in the United States. The bacteria that cause meningococcal disease are very common.

Meningococcal vaccine: Who should get the vaccine and when?

MCV4, or the meningococcal vaccine, is recommended for all children 11-12 years of age and for unvaccinated adolescents at high school entry (15 years of age). High school seniors should also consider obtaining the vaccine prior to entering college, especially if they are planning on living in a dormitory. Please consult your physician or local health department for more information.

For more information concerning this or vaccine recommendations visit www.adph.org/immunizations.

SAFETY AND EMERGENCY PROCEDURES

ASBESTOS MANAGEMENT PLAN

EPA Regulations require local schools to notify parents, teachers and employees that there is an Asbestos Management Plan on file in the school office. If you have any questions, please contact the school principal.

FIRE AND SEVERE WEATHER DRILLS

Fire and tornado drills are held throughout the school year. Drills may occur at any time of the day. There is to be no talking during a drill. Students are requested to move quickly without running or pushing. Upon completion of the drill, the all-clear signal will be sounded, at which time all persons will return to their classrooms.

TORNADO WATCH – REQUIRED PROCEDURE

In the event a tornado watch is issued for areas in which a school is located, the principal or his or her designee of that school shall take all actions as specified in the approved Civil Defense plan. When a tornado watch is in effect at the conclusion of the normal school day, students will be released according to regular dismissal and transportation plans.

TORNADO WARNING – REQUIRED PROCEDURE

In the event a tornado warning is issued for areas in which a school is located, the principal or his or her designee at that school should take all actions specified in the approved Civil Defense Plan. If a tornado warning is in effect, students may not be released pursuant to regular transportation plans; however, students may be released during a tornado warning to students' parents/guardians, provided said parents/guardians come to the school and assume custody of their child(ren).

SCHOOL CLOSINGS

- School may be canceled or dismissed early due to weather or other emergency conditions.
- Students and parents are expected to plan in advance for this possibility and discuss what to do and where to go in this type of situation.
- The decision to cancel school, open late or dismiss early will be determined by the school system's superintendent.
- Parents will be notified via email, phone call, text, and ACS app push. Messages will be displayed on all ACS websites and district social media pages (Facebook, Twitter and Instagram). Announcements will also be sent to local television and/or radio.
- Latchkey services will not be provided on days that school is dismissed early due to inclement weather.
- If school must dismiss before 2:30 p.m., children will only be allowed to leave with adults to whom parents have given written permission (including emergency contacts). This must be on file at the school.

SCHOOL SAFETY PLANS

All Athens City Schools have an updated Safety plan. The Safety plan addresses all hazards that may affect the school.

STUDENT SAFETY

- Safety is one of the basic concerns in the elementary schools.
- Students shall stay on school property during school hours and until parents pick them up at the end of the day.
- All parents should be aware of the traffic pattern established at the school. If parents have questions, they should contact the office.

STUDENT CONDUCT

ANTI-BULLYING POLICY

Section 1: Bullying, Intimidation, Violence, and Threats of Violence Prohibited.

No student shall engage in nor should any be subjected to bullying, violence, threats of violence or intimidation by any other student that is based on any of the specific characteristics set forth in this policy. Students who violate this policy will be subject to appropriate disciplinary sanctions as specified in the Student Code of Conduct, subject to the investigating school administrator's authority and decision.

Section 2: Definitions

In this policy, these terms shall have the following meanings:

"Bullying" means a continuous pattern of intentional behavior on or off of school property, on a school bus, or at a school-sponsored function including, but not limited to, cyberbullying or written, electronic, verbal, or physical actions that are reasonably perceived as being motivated by any characteristic of a student, or by the association of a student with an individual who has a particular characteristic, if the characteristic falls into one of the categories of personal characteristics contained in this policy. To constitute bullying, a pattern of behavior may do any of the following:

- Place a student in reasonable fear of harm to his or her person or damage to his or her property.
- Have the effect of substantially interfering with the educational performance, opportunities, or benefits of a student.
- Have the effect of substantially disrupting or interfering with the orderly operation of the school.
- Have the effect of creating a hostile environment in the school, on school property, on a school bus, or at a school-sponsored function.
- Have the effect of being sufficiently severe, persistent, or pervasive enough to create an intimidating, threatening, or abusive educational environment for a student.

Hostile environment means the perception by an affected student that the conduct of another student constitutes a threat of violence or bullying and that the conduct is objectively severe or pervasive enough that a reasonable person, under the circumstances, would agree that the conduct constitutes bullying, threat of assault, or assault.

Violence means the unjustified infliction of physical force by a student with the intent to cause injury to another student or damage to the property of another student.

Threat means a statement of an intention to inflict pain, injury, damage, or other hostile action to cause fear of harm. The intention may be communicated through an electronic, written, verbal, or physical act to cause fear, mental distress, or interference in the school environment. The intention may be expressly stated or implied and the person communicating the threat has the ability to carry out the threat.

Threat of violence means an unjustified expression of intention to inflict injury or damage that is made by a student and directed to another student.

Intimidation means an unjustified threat or other action that is intended to cause fear or apprehension in a student.

Student as used in this policy means a person who is enrolled in Athens City public school system.

Section 3: Description of Behavior Expected of Students

Students are expected to treat other students with courtesy, respect, and dignity and comply with the Code of Student Conduct. Students are expected and required

- to comply with the requirements of law, policy, regulation, and rules prohibiting bullying, violence, or intimidation; to refrain from inflicting or threatening to inflict violence, injury, or damage to the person or property of another student, and
- to refrain from placing another student in fear of being subjected to violence, injury, or damage when such actions or threats are reasonably perceived as being motivated by any personal characteristic of the student that is identified in this policy.

Bullying, intimidation, violence, or threats of violence are prohibited and will be subject to appropriate disciplinary consequences and/or sanctions if the perpetrator of such action is found to have based the prohibited action on one or more of the following personal characteristics of the student:

- Race
- Sex
- Religion
- National origin
- Disability

Section 4: Consequences for Violations

A series of graduated consequences for any violation of this policy will be those outlined in the Code of Student Conduct or any rule or standard adopted under authority of this policy.

Section 5: Reporting, Investigation, and Complaint Resolution Procedures

- Complaints alleging violations of this policy may be made on a Board-approved complaint form available in the Student/Parent Handbook on the website, or at the school's office. The complaint must be delivered to the principal or the principal's designee either by email, mail or personal delivery. Incidental or minor violations of the policy may be presented and resolved informally.

The complaint form developed to report violations of this policy will include a provision for reporting a threat of suicide by a student. If a threat of suicide is reported, the principal or the principal's designee is authorized to inform the student's parent or guardian of the report unless at the discretion of the school principal or the principal's designee the apparent cause of the threat of suicide is child abuse or other significant harm from a parent or guardian.

- Upon receipt of the complaint, the principal or the principal's designee will determine if the complaint alleges a serious violation of this policy. If the principal or the principal's designee determines that the complaint alleges a serious violation, the principal or the principal's designee will undertake a reasonably prompt investigation of the complaint. The investigation will entail the gathering of relevant facts and evidence taking into account the circumstances of the complaint. If the investigation establishes a violation, appropriate disciplinary sanctions may be imposed on the offending student(s). Other measures that are reasonably calculated to prevent a recurrence of the violations(s) may also be imposed by the principal or the school system.
- Acts of reprisal or retaliation against any student who has reported a violation of this policy or sought relief provided by this policy are prohibited, and are themselves a violation of this policy. Any confirmed acts of reprisal or retaliation may be subject to disciplinary sanctions that may include any sanction, penalty, or consequence that is available to school officials under the Code of Student Conduct. A student who deliberately, recklessly, and falsely accuses another student of a violation of this policy may be subject to disciplinary sanctions as outlined in the Code of Student Conduct.

Section 6: Promulgation of Policy and Related Procedures, Rules, and Forms

This policy and any procedures, rules and forms developed and approved to implement the policy will be published on the website of each local board of education and school, shall be available at each school office, and shall be included in the student handbook that is distributed to each student at the beginning of each school year.

DISCIPLINE

The rules by which students are governed are made for their best interests. Disciplinary actions are generally of a minor type and are dealt with by the teacher. More serious disciplinary actions or habitual misbehavior will be referred to the principal. Discipline actions may include:

IN-SCHOOL SUSPENSION

In-school suspension is a structured disciplinary action in which a student is isolated or removed from the regular classroom and extracurricular activities but is not dismissed from the school nor counted absent during the period of in-school suspension. The principal or designee has the authority to assign students to the in-school suspension program for a reasonable and specified period of time not to exceed ten (10) consecutive days per assignment. Extended ISS assignments require approval of the Superintendent or designee. Students assigned to the in-school suspension program will be counted present to school and will be allowed to continue or make up their academic work in accordance with board policy. Students assigned to ISS may be required to perform written work assignments as directed by the ISS supervisor.

The principal and their staff should determine the scope of in-school suspension in their respective schools. The parent or guardian must be notified by the same procedure outlined in the out-of-school suspension policy.

OUT-OF-SCHOOL SUSPENSION OR ALTERNATIVE PLACEMENT

The Board recognizes its authority to maintain good order and discipline within the schools of the school system. Therefore, the Board gives school principals the authority to suspend a student from school for just cause, and /or to place a student into an alternative school setting. However, the principal shall be required to advise the Superintendent or designee of all student out-of-school suspensions and alternative school placements.

Authority

The school principal or designee has the authority to suspend regular education students from school, or to place the student in an alternative school setting, for up to ten (10) school days per incident/disciplinary infraction. Prior to suspending or placing students in this manner, the student will be afforded minimal due process with the school principal or designee as set forth in Policy JCAA. However, where a student's presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process, such student may be immediately removed from school, and in such cases, the minimal due process set forth in Policy JCAA should follow as soon as practicable.

LONG-TERM SUSPENSION, LONG-TERM ALTERNATIVE SCHOOL PLACEMENT, AND EXPULSION

In more serious situations, a student may face more serious disciplinary consequences, including long-term suspension (more than 10 and less than 90 days per incidence), long-term alternative school placement (more than 15 and less than 90 days per incidence), or expulsion (more than 90 days per incidence). In these cases, the following procedures will be followed:

1. The student is afforded an opportunity for a disciplinary hearing.
2. The student and parent/guardian receive written notice of the disciplinary hearing. (If the notice is not responded to by a parent/guardian, the hearing shall be waived). The student has the right to waive the hearing and accept the discipline.
3. If parent/guardian responds to the notice, a disciplinary hearing shall occur within 10 school days after the initial suspension from school unless good cause is otherwise shown or agreed upon by parties.
4. The student may be represented at the hearing by legal counsel or another advocate of the student's choice at the student's expense.
5. At least five (5) days before the hearing, the student, parent/guardian, and/or legal counsel/advocate, may review information that may be presented as evidence at the hearing in accordance with federal and state student record laws and regulations.

6. At the hearing, school officials shall offer evidence that the student violated the code of student conduct or state law.
7. The student may present a defense.
8. Each party to the hearing, upon request, shall receive an electronic or written record of the hearing from the Board of Education.
9. Within five (5) school days after the hearing, a written decision will be sent to the student and parent/guardian.
10. A student has the right to appeal the decision by filing an action in juvenile court pursuant to Ala. Code §12-15-115. Students wishing to appeal must file a notice with the local juvenile court within 14 days of the Board's decision.

More information and detail can be found about these procedures in school board Policy JDE.

WAIVER OF STUDENT DISCIPLINARY HEARING

A parent/guardian and student may choose to waive the student disciplinary hearing and accept the school's recommended disciplinary response for the violation of the code of conduct by reviewing and signing a disciplinary hearing waiver prior to the scheduled disciplinary hearing date.

Any efforts to negotiate the school's disciplinary recommendation relative to the incident should be concluded prior to the signing of the waiver in which the stated rule violation(s) and disciplinary recommendations are noted. By signing and submitting a hearing waiver to the school, the parent/guardian and student agree to and accept the disciplinary recommendation of the school and waive their rights to challenge and/or appeal the waiver at a later date.

A disciplinary waiver is not final until reviewed and approved by the Superintendent or designee.

DRESS CODE

All students are required to comply with the following guidelines:

- Shoes must be worn and properly laced or fastened. Tennis shoes are required for participation in P.E. classes.
- Shoes determined to be dangerous or a safety hazard will not be worn.

- Students will not wear clothing that reveals the body in an inappropriate manner.

SEXUAL HARASSMENT

Sexual Harassment Prohibited

In accordance with Title IX and its regulations (34 CFR Part 106), the Board does not discriminate on the basis of sex or gender in the education programs and activities that it operates, and it strictly prohibits such discrimination on the basis of sex or gender in its education programs or activities, including sexual harassment, as defined by law and Board policy. Inquiries regarding the application of Title IX regulations may be referred to the Board's Title IX Coordinator, to the Assistant Secretary for Civil Rights of the Department of Education, or both. Sexual harassment complaints will be filed and reviewed under this policy. All other complaints under Title IX will be filed and reviewed according to the Board's general complaint and grievance procedures. Sexual harassment in any form that is directed toward students and/or employees is prohibited. Persons who violate the policy will be subject to the full range of disciplinary consequences up to and including termination (for employees) and expulsion (for students) as dictated by the nature and severity of the violation and other relevant considerations. If appropriate, the circumstances constituting the violation may be reported to law enforcement agencies or child welfare agencies for further investigation and action.

Title IX Coordinator

The Superintendent is authorized and directed to designate a Title IX Coordinator to oversee implementation and enforcement of this policy, as well as compliance with applicable procedures, rules and regulations. The Title IX Coordinator shall receive complaints of prohibited conduct, coordinate investigations, and ensure adequate training. Contact information for the Title IX Coordinator can be found on the district webpage and in the student handbook.

Sexual Harassment Defined

Title IX regulations define sexual harassment to include one or more of the following: An employee conditioning the provision of an aid, benefit, or service of the school/school system on an individual's participation in unwelcome sexual conduct (i.e., quid pro quo sexual harassment); Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the school/school system's education program or activity; or Sexual assault, dating violence, domestic violence, or stalking, as each of those terms is defined by federal statutes enumerated in the Title IX regulations, 34 C.F.R. § 106.30(a). Examples of Sexual Harassment The following are examples of conduct that may constitute sexual harassment, depending on the circumstances: Verbal harassment or abuse of a sexual nature, including graphic comments, the display of sexually suggestive objects or pictures, and sexual propositions; Repeated unwelcome sexual advances, solicitations of sexual activity, or sexual contact; Unwelcome, inappropriate sexual touching; Demands for sexual favors accompanied by implied or overt promises of preferential treatment or threats with regard to the student's educational status. Employees and students should note that misconduct falling outside this policy may nonetheless violate other Board policies (such as the student code of conduct) and thus be otherwise subject to disciplinary action.

Sexual Harassment Complaint Procedures Authorized

The Superintendent is authorized and directed to establish, implement and revise more detailed sexual harassment complaint procedures in compliance with Title IX that are designed to provide students and employees who believe that they are victims of unlawful sexual harassment with a thorough, discreet, and prompt internal procedure for investigating and resolving sexual harassment complaints. The process and procedures will be drafted so as to provide supportive measures, facilitate the gathering of relevant facts and evidence, permit timely assessment of the merits of the complaint, provide an opportunity for informal resolution of the complaint where appropriate, eliminate any harassment that is established by the investigation, and prevent any retaliation based upon the filing of the complaint. The procedures will reflect due regard for the legal rights and interests of all persons involved in the complaint, and will be drafted, explained, and implemented so as to comply with federal regulations, and to be understandable and accessible to all student/employee population groups and ages.

Initial Confrontation of Accused Harasser Not Required

A student or employee who invokes the harassment complaint procedure will not be required to present the complaint to the accused or suspected harasser for resolution.

Reporting

Any person may report sex discrimination, including sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment), in person, by mail, by telephone, by electronic mail, to the Title IX Coordinator. Students will also be permitted to report allegations of suspected harassment to any appropriate Board administrator, teacher, counselor, or employee, and such persons have a duty to promptly refer such allegations to the Title IX Coordinator or to take such action as may be required by the procedures established under "Sexual Harassment Complaint Procedures Authorized" above. In no case will any employee who is the subject of a complaint be permitted to conduct, review, or otherwise exercise decision-making responsibility in connection with the processing of the complaint.

Notice of Policy to be Promulgated

The Superintendent will promulgate and disseminate this policy and the complaint procedures to applicants for admission and employment, the schools, parents and legal guardians, unions and professional organizations, and will take such other steps and measures as may be reasonably available and expedient for informing the school community of the conduct prohibited by this policy and the recourse available to students who believe that they have been subjected to sexual harassment.

Confidentiality

To the extent possible, reports of sexual harassment will be kept confidential; however, complete confidentiality cannot be guaranteed.

Retaliation Prohibited

No retaliation or adverse action may be imposed as a result of a good faith complaint or report of sexual harassment. Complaints alleging such retaliation may be made in the same manner as a complaint for sexual harassment. False accusations that are made in bad faith or for improper reasons may result in disciplinary action.

Penalties for Failing to Cooperate with Investigation

All employees must cooperate with any investigation regarding allegations of sexual harassment under this policy. Any employee who impedes or unreasonably refuses to cooperate with an investigation regarding allegations of sexual harassment will be subject to appropriate disciplinary action, up to and including termination.

RIGHTS AND RESPONSIBILITIES

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA) 1974

FERPA affords parents/guardians and students over 18 years of age “eligible students” certain rights with respect to the student’s education records and personally identifiable information.

These rights are:

Inspect and review information contained in their education records, to challenge the contents of the education records, to have a hearing if the outcome of the challenge is unsatisfactory, and to submit explanatory statements for inclusion in the files if the decisions of the hearing panels are not acceptable to the challenging party.

Consent before students are required to submit to a survey that concerns one or more of the eight protected areas as designated by the statute. It also provides the right to receive notice and an opportunity to opt a student out of protected area surveys, non-emergency invasive physical exams, or screenings.

Consent to disclosures of personally identifiable information contained in the student’s records, except to the extent that FERPA authorizes disclosure without consent. Information may be disclosed to school officials with legitimate educational interests.

File a complaint with the Family Policy Compliance Office (FPCO), US Dept. of Education; Washington, DC. with the alleged failure(s) by the school district to comply with FERPA requirements.

PARENTAL RESPONSIBILITY

Under Alabama law, local school systems are required to inform parents and guardians of their education-related responsibilities. Parents and guardians are responsible for the child’s attendance and conduct in school. Parents and guardians are required to read the Code of Student Conduct and sign acknowledgement electronically through the registration/returning student registration. Under Alabama law, parents or guardians who fail to compel their child to regularly attend school or fail to compel the child to properly conduct himself or herself as a pupil in accordance with the written policy on school behavior adopted by the Board of Education shall be guilty of a misdemeanor and, upon conviction, shall be fined not more than \$100 and may be sentenced to hard labor for the county for not more than 90 days. (Code of Alabama, §16-28-12)

CURRICULUM TRANSPARENCY ACT (Act 2024-35)

At the beginning of each school year, and no later than 30 days after a new or revised curriculum is adopted, the superintendent shall verify that each school has posted current adopted curricula for each class on the school’s website. Access to the online curricula shall be made available to students, parents, or guardians of enrolled students through the local website.

Parents of students enrolled in a teacher’s class may make requests for detailed summaries of the following information directly to the teacher:

- Instructional materials adopted by the local board
- Supplementary materials used in the classroom that were not adopted by the local board
- Books available in the classroom for students to read

For any class in which reading books is required, the parent may request the title and syllabus for those books.

If parents want more information about how materials relate to the state-adopted content standards or want to

physically examine any materials used in the classroom, they may request this information by contacting the school principal. If necessary, parents may also request that the local board allow the examination at the next work session or at the end of a board meeting.

If the teacher fails to comply, the parent/guardian may file a complaint with the superintendent. If the complaint is not resolved by the local superintendent within 10 school days, the parent/guardian may file a complaint with the State Superintendent of Education or his/her designee.

STUDENT DUE PROCESS

Before being punished for violation of a Board policy or local school rule and regulation, (but not necessarily before being removed from the immediate academic setting), the local school principal or designee will ensure that students are accorded appropriate due process. The following minimal due process will be accorded the student:

1. The student will be given oral or written notice of the charge(s) against him/her.
2. The evidence supporting the charge(s) will be explained to the student.
3. The student will be given an opportunity to present his/her own version of the facts concerning the charge(s).

If the disciplinary action recommendation is for long-term alternative placement (more than 15 days), long-term suspension (more than 10 and less than 90 days), or expulsion, the student is afforded an opportunity for a disciplinary hearing.

STUDENT GRIEVANCES

Students have both the right and the responsibility to express school-related concerns and grievances to the teachers and school administrators. The term "grievance" applies to matters which fall within the discretionary powers of the principal, Superintendent and/or Board. Any student with a personal grievance is to discuss the matter with the teacher involved. When the nature of the grievance dictates otherwise, the student, upon notifying the teacher directly involved, may request a meeting with the school principal. One faculty member of the student's choice or his/her parent(s) or guardian(s) may be present at such meeting. A grievance is defined as written claim submitted by a student of a violation, misinterpretation, or inequitable application of local Board policy, local school rules and regulations, or local administrative procedure.

In the event that the grievance cannot be settled at the school level, then the student through his/her parent(s) or guardian(s) may pursue the grievance to the Superintendent and then to the Board.

TECHNOLOGY

CELL PHONES/ELECTRONIC COMMUNICATIONS DEVICES

Personal wireless communication devices, mobile computers, and mobile phones must be turned off during school hours unless the device is being used for supervised classroom instruction solely for educational purposes-at the discretion of the teacher. It is the student's responsibility to ensure that the device is turned off and out of sight during unauthorized times. Violation of this policy and/or use that violates any other district policy shall result in disciplinary measures and confiscation of the electronic device. School administrators may read, examine, or inspect the contents upon reasonable suspicion that the device contains evidence of a violation of civil and/or criminal law, Board policy, or the Code of Student Conduct.

Students who bring mobile devices to school assume all risks of damage, theft, loss, or misuse of the device. The district holds no responsibility for damage or loss of personal devices.

Students who choose to connect to the district network agree to the requirements of the Student Internet & Electronic Mail Acceptable Use Policy and should consider the personal devices to the same level of monitoring and access as any district-owned device. The district reserves the right to monitor Internet and network use of personal devices on all district networks.

STUDENT INTERNET SAFETY & ACCEPTABLE USE OF COMPUTER TECHNOLOGY (GRADES PK-5)

Student Internet use in the elementary schools is highly supervised and elementary students pose very little risk to network security; however, the policies outlined below are designed to protect the safety of your child as well as the school system. Therefore, please review these policies and discuss them with your child in a manner they will understand. If you have questions about any of these policies, please discuss them with your child's teacher.

GENERAL

The Athens City School System is pleased to offer students access to a networked computer environment that provides access to a variety of instructional software and to the Internet. In order for the school system to be able to continue to make its computer network and Internet access available, all students must take responsibility for appropriate and lawful use of this access. Access to technology resources is a privilege, not a right and may be revoked if abused. Access entails responsibility.

The following pages describe the provisions of your agreement regarding computer network and Internet use. Students violating these rules will lose computer privileges and/or receive punishment as defined in the *School Code of Conduct*. Misuse of the school system's technology will subject students to revoked computer usage, monetary charges to repair damaged equipment, detention, suspension, and/or expulsion. Violation of civil and/or criminal law relating to technology and its use can result in criminal prosecution and civil liability.

ACCESS

The school system's technology network is a limited forum, similar to the school newspaper, and therefore the school system may restrict your speech while using the network. Students should expect no privacy in the contents of personal files or record of web research activities on the network. The school system reserves the right to monitor, inspect, copy, review, and store at any time and without prior notice any and all usage of the computer network and Internet access and any information transmitted or received in connection with such usage. If a user is believed to be in violation of any of the technology guidelines, a system administrator may review communications and provide documentation related to any violation. The school system does not guarantee the privacy, security, accuracy, truthfulness, or confidentiality of any information sent or received via the Internet.

- The use of all Athens City School District's technology resources is a privilege, not a right, and inappropriate or suspected inappropriate use will result in a cancellation of those privileges, pending investigation.
- Individuals may use only accounts, files, software, and/or other technology resources that are assigned to, provided, or approved for use.

- Individuals identified as a real or suspected security risk will be denied access.
- Individuals must not attempt to disrupt any technology services or data integrity by engaging in inappropriate activities. Examples include, but are not limited to, spreading viruses, spamming, excessive network and/or Internet activity, or modification of equipment or infrastructure.
- Individuals must not attempt to modify technology resources, utilities, and configurations, and/or change the restrictions associated with his/her accounts, or attempt to breach any technology resources security system or filtering systems, either with or without malicious intent.
- Personal technology-related devices such as, but not limited to laptops, cell phones, smart-phones, smartwatches, iTouch/iPods/iPads, cameras or other eDevices, etc. used on school grounds are subject to all rules covered in this policy and other applicable published guidelines. The permission for such personal devices to be brought to school and the use of such devices will be at the discretion of the local school administration. The use of personal devices during school hours, using school network access, is subject to the conditions outlined in this policy and all other school system policies and guidelines, as well as local, state, and federal laws.
- The district technology director, and/or school system administrators will determine when inappropriate use has occurred, and they have the right to deny, revoke, or suspend specific user accounts.

INTERNET USE

The Internet is a global network made up of many smaller contributing networks connecting millions of users throughout the world. Through the Internet, students can explore thousands of libraries, databases, museums, and other resources to enhance educational experiences. In compliance with the Children's Internet Protection Act that was signed into law December 21, 2000, the Athens City School System has established several measures to help protect Internet users.

Although the Athens City School System provides a reputable Internet blocking system in addition to teacher/staff supervision, it is not possible to screen all materials. It is important for families to discuss the appropriate use of the Internet and to set expectations for the kinds and types of materials that are acceptable for viewing. Ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using the Internet and the schools' technology resources.

- The intent of the Athens City School District is to provide access to resources available via the Internet with the understanding that staff and students will access and use information that is appropriate for their various curricula.
- All school rules and guidelines for appropriate technology usage, as well as local, state, and federal laws apply to usage of the Internet.
- Students gain access to the Internet by agreeing to conduct themselves in a considerate and responsible manner and by providing written permission from their parents.
- Internet activity can and will be monitored, along with other aspects of technology usage.
- Successful or unsuccessful attempts to bypass the Internet filters by using proxies or other resources are a violation of this policy.

Electronic Mail

Electronic mail access is intended to support only educational, instructional, and administrative functions. Students are not allowed to use instructional time and school resources to check personal email accounts via the Internet. The school system cannot guarantee the privacy, security, accuracy, truthfulness, or confidentiality of any information sent or received via electronic mail.

Web Publishing

The Athens City Schools' web sites are limited to usage associated with activities of the school district. The web site(s) cannot be used for profit, for commercial purposes, to express personal opinions, or to editorialize.

- Student pictures or other personally identifiable information can be used in accordance with FERPA guidelines.

- Individual students may be identified by full name unless permission to do so is denied by the parent or guardian in writing to the school principal. Full names may only be used in reporting student participation in school sponsored extracurricular activities, achievements, and other positive recognitions.
- Infringement of copyright laws, obscene, harassing or threatening materials on web sites are against the law and are subject to prosecution.

The school system's web sites are publications designed to inform students, parents, and the community about school activities.

The term "web site(s)" includes the web pages that are an integral part of the site as well as the web sites and/or pages to which a link has been provided within a school system site or page. Only schools, departments, activities, and teachers of the Athens City School System will have web pages sponsored by and linked together under the Athens City School's homepage. The Athens City School System takes no responsibility for sites that may unknowingly link to school-sponsored web pages.

- Material (including but not limited to text, graphics, photographs, artwork, audio, video, etc.) generated by or using the resources of a school, a school-sponsored activity, or the school system may only be shown on a web site or page with the approval of the technology coordinator, principal and/or superintendent.
- The provisions of the Family Educational Rights and Privacy Act, 20 U.S. C. 1232g will be observed regarding the inclusion of student and family data on web sites.
- Many teachers post assignments on websites. Although this is an excellent instructional tool, there are times when the Internet may not be available. Lack of Internet access does not relieve the student of the responsibility of complying with classroom instructions from the teacher or contacting the teacher or school to obtain current instructions, assignments, or other guidance.
- Students attempting to or found to have tampered with web site content or operation, without authorization, shall be considered to have committed a Class III offense punishable as provided in the Student Code of Conduct.

Data Security

- Students are expected to follow all local, state and federal laws and system policy regarding the protection of student and staff confidential data.
- Users should not have any expectation that their usage of such resources is private. Reasonable efforts will be taken to maintain security of technology resources, but the school district cannot ensure that such security will not be penetrated or breached and cannot assume any liability arising out of any such penetration or breach of security.
- Users are responsible for their individual network accounts and must take all reasonable precautions to prevent unauthorized access to accounts and data and any other unauthorized usage within and outside the Athens City School District. Any such unauthorized usage shall be reported immediately to the local school principal and/or the district technology director.
- Students shall be responsible for reporting suspected or actual breaches of data security whether due to inappropriate actions, carelessness, loss/theft of devices or failures of technical security measures. Students should not go looking for security problems, as this will be construed as an illegal attempt to gain access.
- Individuals may not attempt to log into the network using any network account and/or password other than the login(s) assigned to him/her. Individuals may not allow someone to use his/her network account and/or password to access the network, email, specific software packages, or the Internet.
- The system-wide technology staff does perform routine backups in an effort to assure continuity of business. There can be no assurance, however, that technology resources will be available within a particular time frame following an outage. There is no guarantee that information that existed prior to an outage, malfunction, or deletion, can be recovered.
- Users are expected to maintain and back up their critical files and data. To maintain effective network performance, data stored on the servers will be deleted on a regular basis.

Privacy

To maintain network integrity and to insure that the network is being used responsibly, if any policy violation or inappropriate behavior is suspected, the technology director, local school administrators, and/or other designated technology staff reserve the right to inspect any and all data, including data stored by individual users on individual school or personal devices. Users should be aware that activities may be monitored at any time, without notice.

- Users should not have any expectation that their use of technology resources, including files stored by them on the Athens City Schools' network, will be private and will be secure from access by others.
- Because communications on the Internet are public in nature, all users should be careful to maintain appropriate and responsible communications.
- Athens City School District cannot guarantee the privacy, security, or confidentiality of any information sent or received, either via the Internet, an email facility, telephone, or otherwise.
- Users should not store personal and/or private information on the district and/or schools technology resources.

Rules and Uses

The following rules and policies govern the use of the Athens City School System's technology resources.

- **Personal Safety and Personal Privacy**

You are prohibited from posting personal contact information about yourself. Personal contact information includes your address, telephone, school address, work address, etc. This information may not be provided to an individual, organization, or company, including web sites that solicit personal information. Never meet or agree to meet with a person you communicated with online. You will promptly disclose to your teacher, counselor, or principal any message you receive that is inappropriate or makes you feel uncomfortable. Under no conditions should you provide your password to another person. You must not use school computers and resources to participate in Internet chat rooms that are not related to instruction. Entry into chat rooms during school hours must be pre-approved by teachers.

- **Illegal Activities**

You will not use the school's technology resources to engage in any illegal act. In the event there is a claim that you have violated this policy, you will be provided due process rights and will be subject to criminal prosecution and civil liability.

- **Inappropriate Communication and Cyberbullying**

Restrictions against inappropriate language apply to public messages, private messages, and material posted on web pages. You will not use obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language. You will not post information that could cause damage or a danger of disruption. You will not engage in personal attacks, including prejudicial or discriminatory attacks. You will not harass another person. Harassment is persistently acting in a manner that distresses or annoys another person. If you are told by a person to stop sending messages, you must stop. You will not knowingly or recklessly post false or defamatory information about a person or organization. Cyberbullying and harassment behavior is governed by Athens City School Board Policy JNA – Anti-Bullying Policy.

- **Respecting Resource Limits**

You will use the system only for educational activities. You will not download large files unless approved by the school's computer lab manager/teacher. If it is necessary to download a large file, you will download the file during a time when the system is not being heavily used and will remove the file from the system as soon as it is used for the required educational activity. You will not post chain letters or engage in "spamming". Spamming is sending an annoying or unnecessary message to a large number of people.

- **Plagiarism**

You will not plagiarize works that you find on the Internet. Plagiarism is taking the ideas or writings of others and presenting them as if they were yours.

Artificial intelligence is a new, vastly emerging technology. As such, its uses and the implications of its use are still being discovered. However, its use will be treated like any established technology resource in the Athens City School District. Any work produced must be properly cited and/or attributed to the generative AI engine, and any malicious or unethical use will be subject to the disciplinary actions of the Code of Conduct.

- **Care of Equipment**

You will take care to protect the school system's equipment from damage and will follow all rules established by the school in regards to use of the equipment. You are prohibited from installing software on school equipment. You and your parents can be held financially responsible for any and all harm to the system's equipment and/or network as a result of misuse and/or intentional damage.

- **Inappropriate Access to Material**

You will not use the school's technology resources to access material that is designated for adults only or is profane or obscene (pornography), that advocates illegal or dangerous acts, or that advocates violence or discrimination towards other people (hate literature). If you mistakenly access inappropriate information, you should immediately tell your teacher. Your parents should instruct you if there is additional material they think it would be inappropriate for you to access. The school system fully expects that you will follow your parent's instructions in this matter.

It is the obligation and intent of the Athens City School System to comply with the copyright laws of the United States – including those pertaining to computer software and peer-to-peer file sharing. You will respect the rights of copyright owners. Copyright infringement occurs when you inappropriately reproduce a work that is protected by a copyright. If a work contains language that specifies appropriate use of that work, you should follow the expressed requirements. If you are unsure whether or not you can use a work, you should request permission from the copyright owner.

As cited in Board Policy IFBGB, all copyright laws and license agreements between the vendor and the school system shall be observed.

You are not authorized to make copies of any software owned by the Athens City School System without the knowledge and permission of the System Technology Coordinator. In addition, you are prohibited from using school equipment to make illegal copies of personal software or to download copyrighted materials. Illegal, unauthorized, or unlicensed copies of software or files must not be used on school system equipment and will be removed if identified.

Disciplinary Actions

Routine maintenance and monitoring of the network may lead to discovery that you have violated school policies or the law. The school system will cooperate fully with local, state, or federal officials in any investigation related to any illegal activities conducted while using school technology resources. In the event there is a claim that you have violated any of these policies, you will be provided due process rights and will be subject to criminal prosecution and civil liability. In addition, you will be subject to punishment as defined in the *School Code of Conduct*.

Limitation of Liability

The Athens City School System expressly denies all warranties of any kind, either express or implied, in connection with its provision of access to and use of its computer networks and the Internet provided under this Policy. It shall not be responsible for any claims, losses, damages or costs (including attorney's fees) of

any kind suffered, directly or indirectly, by any user or his or her parent(s) or guardian(s) arising out of the user's use of its computer networks or the Internet under this Policy. By signing this Policy, users are taking full responsibility for his or her use, and the user who is 18 or older or, in the case of a user under 18, the parent(s) or guardian(s) are agreeing to indemnify and hold the Athens City School Board, the Athens City School System, and all of their administrators, teachers, agents, and staff harmless from any and all loss, costs, claims or damages resulting from the user's access to its computer network and the Internet, including but not limited to any fees or charges incurred through purchases of goods or services by the user. The user or, if the user is a minor, the user's parent(s) or guardian(s) agree to cooperate with the School Board in the event of the Board's initiating an investigation of a user's use of his or her access to its computer network and the Internet, whether that use is on a school computer or on another computer outside the school system's network.
